

Steel Tanks

Bench Tanks

One standard flat top that allows more work surface, unique design eliminates as many weld seams as possible. 8" x 14" reel plate. Strategically located openings that allow the maximum amount of workspace. 4" high supports welded to the bottom of the tank for easy cleaning and inspections. Each work bench is cleaned chemically to insure that coatings adhere properly. 1- 1" drain one end. Primer coating. All tanks are tested in accordance with and bear the Underwriters Laboratories 142 label.

Gallons	Part No	Dimension	Weight	Part No	Dimension	Weight
